**STATEMENT OF FACTS IN SUPPORT OF FILING
ON BEHALF OF NONSIGNING INVENTOR (37 C.F.R. § 1.47)**

NOTE: This statement as to the pertinent facts concerning the refusal of the nonsigning inventor to join in the application or where the omitted inventor cannot be found or reached must accompany the declaration signed on behalf of the omitted inventor by a joint inventor or by a legal representative who shows a proprietary interest. Where the entity with a proprietary interest executes the declaration on behalf of the omitted inventor there must also be a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage. 37 C.F.R. §§ 1.47(a) and (b).

This statement is made as to the exact facts that are relied upon to establish the diligent effort made to secure the execution of the declaration by the nonsigning inventor for the above-identified patent application before deposit thereof in the Patent and Trademark Office.

(check next item, if applicable)

- ☐ Because signing on behalf of the nonsigning inventor is by a person or entity showing a sufficient proprietary interest, this statement also recites facts as to why this action was necessary to preserve the rights of the parties or to prevent irreparable damage.

This statement is being made by the available person having first-hand knowledge of the facts recited therein.

NOTE: The statement "must be signed, where at all possible, by a person having first-hand knowledge of the facts recited therein." M.P.E.P. § 409.03(d), 7th ed. If different persons have first-hand knowledge of different facts, then a declaration from each such person as to those facts he or she knows should be submitted separately.

NOTE: Copies of documentary evidence, such as certified mail return receipt, cover letter of instructions, telegrams, etc., that support a finding that the nonsigning inventor could not be reached should be made part of the affidavit or declaration. It is important that the affidavit or declaration contain statements of fact as opposed to conclusions. M.P.E.P. § 409.03(d), 7th ed.

**DETAILS OF REFUSAL OF NONSIGNING INVENTOR
TO SIGN APPLICATION PAPERS**

NOTE: Complete either these facts or the facts as to **DETAILS OF EFFORTS TO REACH NONSIGNING INVENTOR**.

NOTE: The circumstances of this refusal must be specified by the person to whom the refusal was made and, before a refusal can be alleged, it must be demonstrated that a bona fide attempt was made to present a copy of the application papers (specification, including claims, drawings and declaration) to the nonsigning inventor for signature. A copy of the application papers should be sent to the last known address of the nonsigning inventor, or, if the nonsigning inventor is represented by counsel, to the address of the nonsigning inventor's attorney. The time and place of an oral refusal should be stated, or a copy of the written refusal should be attached.

If it is the conduct as a whole of the nonsigning inventor that is the refusal, then all the facts upon which this conclusion is based should be stated and a copy of any documentary evidence supporting these facts should be attached.

Where there is an express oral refusal, that fact along with the time and place of the refusal must be stated in the affidavit or declaration. When there is an express written refusal, a copy of the document evidencing that refusal must be made part of the affidavit or declaration.

Whenever the nonsigning inventor gives a reason for refusing to sign the application papers, that reason should be stated. M.P.E.P. § 409.03(d), 7th ed.

1. On June 5, 2002, I spoke to Theodor Katsoulis over the phone and confirmed a face-to-face meeting scheduled for June 6, 2002. A copy of an email communication documenting this confirmation is attached as Exhibit 1.
2. On June 6, 2002, I met with Theodor Katsoulis. He acknowledged reading the application but would not comment on it. I informed him that his failure to sign the documents would not prevent General Electric from pursuing the patent application. I sent an email to GE patent counsel to this effect. A copy of this email is attached as Exhibit 2.

John,

talked to Theo Katsoulis this morning. After going through a couple of HR issues with him, he was no longer in the mood & mindset to discuss the patent. He indicated that he did read the papers, but did not give his comments on it. I explained him that if he doesn't sign (for whatever reason), GE will still file the patent with the patent office.

Since my feeling is that his situation will not change for the better on short notice, I suggest that you go ahead with the process. Please let me know your decision.

Dear Inventors:

Please find attached the final draft of your above referenced U.S. Patent Application, which was filed with the United States Patent and Trademark Office on **December 27, 2001**. Accompanying the Application is a Declaration with Power of Attorney and an Assignment. Please take a moment to review the Assignment and Declaration for accuracy (i.e., correct home address, spelling of name, citizenship), print the documents, sign where necessary (preferably with a blue pen), and return them to my attention. Please note that **THE ASSIGNMENT REQUIRES TWO WITNESS SIGNATURES**.

Please fax the documents to my attention at (860) 286-0115 and mail the originals to us **NO LATER THAN Monday, February 25, 2002**.

You should be aware that applicants for a patent are required to disclose all known, material information to the Patent and Trademark Office. Information includes, but is not limited to, publications, technical literature and foreign and U.S. patents, including any related foreign and U.S. applications or patents. Information is defined as "material" if there is a substantial likelihood that a reasonable examiner would consider it important in deciding whether to allow that application to issue as a patent. Information is not material if it is merely background, cumulative to other disclosed information, or unpublished research. The failure to disclose material information can result in the issued patent (and any related patent) being found invalid and/or unenforceable. Please forward to us copies of any additional articles or other information that you consider material to the above application as soon as possible. If you later become aware of any other prior art which might be material to patentability of the subject invention, you must also bring it to our attention as soon as possible.

Your anticipated cooperation is greatly appreciated. If you have any questions, comments or concerns please do not hesitate to contact me.

Sincerely,
